

Low-Cost Vaccine Clinic

The Licking County Humane Society is now offering a Low-Cost Vaccine Clinic to help ensure the animals in Licking County are protected from diseases. Our Low-Cost Vaccine Clinics are held two to three days every month at LCHS, 825 Thornwood Dr. Heath, OH 43056.

We ask that you make an appointment for your pet to be seen or to purchase preventative medications. See our website for the link to make an appointment. We will do our very best to see you during your requested timeslot but ask that you are patient in case we are running a bit behind.

We are a Wellness Clinic - We cannot look at owned sick/injured animals. If your animal is ill, you will need to take them to a full-service vet clinic to be seen. Your pet must be at least 8 weeks (2 months) old to receive vaccinations. We also ask that no more than 1 animal is brought per person, except for litters of kittens/puppies.

Although we do not offer full veterinarian services, we do offer many basic services such as: heartworm tests, rabies vaccinations, feline leukemia tests, and many more. You can also purchase preventatives, such as heartworm prevention and flea/tick prevention.

Please bring any previous vaccine records for your pet to the clinic. **All dogs must be leashed, and all cats must be in a carrier.**

Each animal will receive a physical examination (\$25) prior to any administration of any vaccine to ensure they are healthy enough to be vaccinated. You will NOT be able to pay online, so please bring payment with you on the day of your clinic. We can accept cash, check, and credit. We also have registration forms available at the shelter which you may fill out when you arrive.

If you have any questions, please call us at (740) 323-2100, or send an email to info@lchspets.org
